datAvail

All Your Data Management Needs. One Group of Technology Experts.

We help clients turn data into decisions no matter where it lives … in applications, on-premises, and in the cloud.

Analytics
Standardizing, integrating, & analyzing your data for actionable business insights.

Applications
Developing, modernizing, & managing your application portfolio to accelerate business agility.

Cloud
Planning, architecting, migrating, & operating your solutions on AWS, Azure, and OCI.

Database
Managing and optimizing relational, NoSQL, open-source, and cloud database platforms.

Oracle Applications
Roadmapping, migrating, implementing, and supporting your Oracle Applications, including Cloud ERP, EBS, PeopleSoft, JD Edwards, and Hyperion/EPM.
