

## Essbase Cloud Service Rapid Start Overview

### Start Your Essbase Cloud Experience on the Right Foot

Essbase Cloud has the power to simplify and streamline your Enterprise Performance Management (EPM), Enterprise Resource Planning (ERP), and Hyperion applications. With the experience of our EPM Services Team, you can gain fixed-fee migration pricing and truncated timelines along with the following benefits:

#### Our proven methodology for rapid application implementation

Datavail has been leading traditional tailored implementations of the Oracle Essbase solution for many years. We have incorporated that experience into this Rapid Essbase Start service.

#### Reduced implementation risk

The Rapid Start brings structure to the approach and to the underlying solution itself. This structure allows you to deploy quickly and with confidence.

#### Rapid time to value for your organization

Deploy Oracle Essbase in weeks rather than months leveraging the Datavail Rapid Start approach.

#### Lower implementation cost

The Datavail Rapid Start approach is designed to reduce the amount of consulting support needed to deploy your Oracle Essbase Cloud Service. This rapid project approach reduces the implementation costs and time to value and dramatically improves your ROI.

Datavail's disciplined methodology leverages over 200 years of combined Essbase expertise under one roof coupled with our collective desire to get the job done as quickly and cost effectively as possible for maximum ROI. Contact us today for a demonstration and overview.

Datavail is a specialized IT services company focused on Data Management with solutions in EPM, BI/DW, analytics, database administration, custom application development, and enterprise applications. Our EPM practice focuses on professional solutions and services for Oracle's market-leading applications. We specialize in accelerated implementations, assessments and roadmaps, cloud migration plans, and managed services via our global delivery model.
