# Complimentary Zero Downtime Cloud Migration Service

According to TechGenix, downtime is the biggest challenge faced during cloud migrations.

Datavail's zero downtime migration service guarantees that you can transfer your operations from on-premise servers to the cloud quickly and easily.

The benefits of moving to OCI, AWS, or Azure include:

Greater flexibility and scalability	Operating from anywhere, at any time	Friendlier cost model	Easier data backups and business continuity	Elasticity

By working with us, you can achieve minimal downtime to your business operations during your next cloud migration. As part of every complimentary zero downtime migration, we offer the following services:

- Holistically review your IT environment.
- Determine your unique benefits, challenges, and requirements.
- Generate a detailed cloud readiness report including the optimal cloud topology and cloud provider platform.
- Executing the "lift and shift" cloud migration.
- Performing software integrations.
- Monitoring and managing the environment's performance throughout the migration.

Platforms Supported

Moving from on-premise to the cloud has many benefits—but getting there in the first place isn't always easy. Datavail supports zero downtime migrations for the following on-premise products:

- Oracle E-Business Suite (EBS) R12
- Oracle Database
- Oracle EPM

To one of the following cloud providers:

- Amazon Web Services
- Microsoft Azure
- Oracle Cloud Infrastructure

Want to learn more about how we can help with your next cloud migration? Get in touch with us today to discuss the solution that best fits your business needs and objectives.

As an Oracle Platinum Partner, Datavail is offering a complimentary zero-downtime migration to companies who sign up for our cloud managed services.

About Datavail

Datavail provides comprehensive consulting, managed services, and software solutions with full coverage across Oracle products from EPM to Oracle BI to EBS and more, either in the cloud or on-premises. Companies rely upon Datavail, an Oracle Platinum Partner and certified Cloud Excellence Implementor, to improve system performance and stability, streamline troubleshooting, support existing IT, finance, and business intelligence teams, and manage projects across both the database and applications infrastructure.
