

Digital Workplace

Let us build your ideal Digital Workplace using Office 365 and SharePoint.

Microsoft's widely popular Office 365 suite offers a flexible, cost-effective and continuously developing set of tools to support knowledge and field workers in their daily work anywhere, anytime and with any device. Office 365 forms the basis for a true digital workplace and is therefore also a natural "home" for the corporate intranet.

Powered by Valo, Datavail can create a 100% responsive, optimized for mobile Digital Workplace solution customized to fit your brand so you can connect your workforce, manage your content, projects and ideas, and enable collaboration across your organization.

A Great Digital Workplace Satisfies 3 Essential User Needs

Get the Job Done

- Projects
- Business Applications
- Workflow
- Tasks
- eForms & Surveys

Find Information

- Search
- Documents
- Employee Database
- Digital Asset Management
- Pages & Sites
- Shared Calendar
- Knowledge Base

Be Informed

- Dashboard
- Blogs
- News
- Idea Workspace
- Social Chat
- Notifications
- Messaging

It's All About People and Sharing

Want to encourage your people to share knowledge across your organization? We help your business work at its full potential. Your Digital Workplace is the center of all communication and collaboration in your organization. People can share questions, ideas and innovations about your products, services and processes – no matter where they are. They can easily collaborate on documents without tons of emails. And even better, easy collaboration and document management is possible with external partners too!

We Will Help Build a Digital Workplace That Suits Your Needs

Social

Share engaging social content, videos and blogs.

People

Find and learn more about your co-workers.

Adoption

Focus on user adoption, content, and analytics.

Multilingual

Manage your content in multiple languages.

Your Digital Workplace can be easy, cost-effective and very useful – at a fixed price! With Datavail + Valo you can design a solution that your users love. Your Digital Workplace can finally focus on the most important factor: supporting your employees in their daily work.
