

Essbase Services

Make Better Decisions with Essbase

Oracle Essbase is an advanced analytics tool that leverages both EPM and Oracle Analytics products to support “what if” scenarios that help you make the best business decisions for your organization.

Leading 24x7 Essbase Managed Services

When you partner with Datavail, you can ensure best practices for implementing and maintaining Essbase. Datavail’s services lead the industry:

- Full support as much or as little as you need
- Flexible services
- Cloud and on-premise upgrades, migrations, and patching
- Health checks
- Assessments
- Performance tuning and maintenance
- Backup and disaster recovery

Upgrade to Essbase 19c

Datavail can accelerate your upgrade with minimal downtime. Our experienced team can provide assistance or full execution and post-upgrade support.

Our services include:

- Upgrade roadmap
- Health checks & performance testing
- End user training and documentation
- System patching
- Historical data reconciliation
- Infrastructure assessment
- Stress testing and disaster recovery testing
- Business rule optimization
- Data integration assessments and optimizations

Migrate to Essbase 19c Cloud

If you're considering Essbase 19c Cloud, or need to move your OAC Essbase instance to Essbase 19c Cloud, talk to Datavail about our cloud migration and managed services.

We can ensure a smooth implementation so your processes are streamlined and your reporting remains accurate. Benefits of migrating include:

- Reduction in IT support requirements and footprints
- Faster and more powerful
- Quick access to new functionality
- Scalability
- Add to existing investments like EPM cloud
- No need to train on-premise users
- Streamlined cube build/maintenance process right from Excel

Datavail is a reliable resource for companies looking to upgrade, migrate, or manage Essbase. Key benefits of our years of expertise include:

Strong technical expertise

coupled with a passion to solve your business problems so you have an optimized and secure environment.

Assurance of a low-risk, smooth cloud deployment or upgrade

by leveraging our deep knowledge and experience.

Ability to maximize business value

by utilizing best practices and proven reference architectures.

Oracle Platinum Partner and Cloud Excellence Implementor

certifications allow us to offer a full suite of EPM & Analytics expertise.

No matter your organization's unique needs, Datavail can tailor its services across the Oracle stack to your situation, letting you focus on your core business functionality worry-free.
