

Create Tomorrow's Campus, Today with Datavail

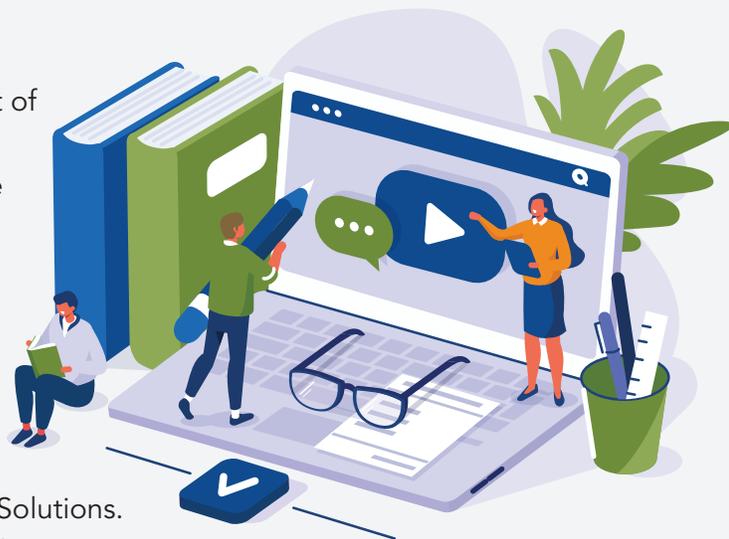

Datavail Services for Higher Education

The challenges that education leaders face today are truly disruptive: declining enrollments, historic student debt, new learning technologies (including distance learning), an aging infrastructure, and unprecedented competition for alumni dollars ... the list is endless.

How We Can Help

Datavail can help with an assembled and comprehensive set of solutions to address the challenges of running a modern school, college or university. Our industry solutions leverage SaaS and PaaS components to help Higher Education institutions modernize their systems, cut costs, and improve insights.

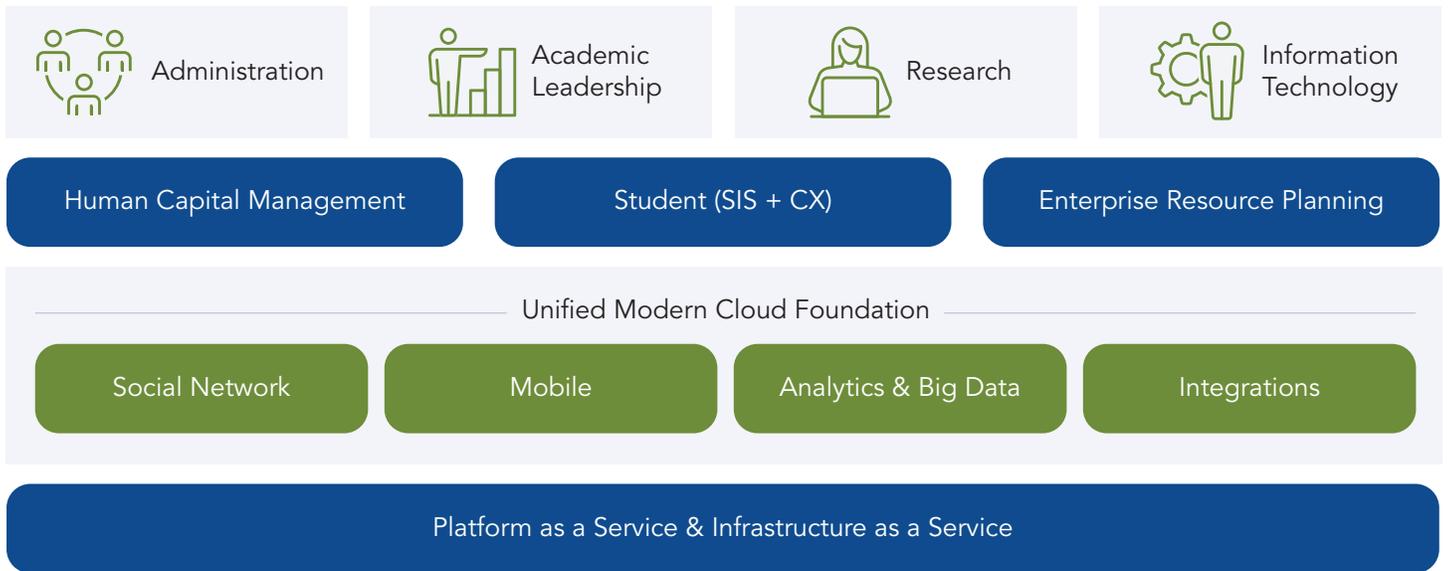

As an Oracle partner and Cloud Excellence Implementer, Datavail provides both functional and technical consulting services across all Oracle and PeopleSoft products including HCM, financials, supply chain, CRM, and Campus Solutions. We also support more database environments and assist with application development and analytics.

Our Services for Higher Education Include

- Implementations & upgrades
- Enhancements & integrations
- Data migration & reporting
- Process improvement & knowledge management
- Onsite and remote support
- Organizational change management
- Analytics to support reporting & decision making

Datavail's Solution to a Modern Campus

Datavail Focus Areas

Enrollment and Degree Planning

A configurable set of applications help plan & manage students' progress through degree programs.

Student Financing

Oracle Student Administration (PeopleSoft Financial Aid) and PeopleSoft Student Financials.

Learning Management Integration

PeopleSoft's Student Administration Integration Pack (SAIP) is a standards-based solution that bridges the gap between the back office and classroom.

Alumni Management & Fundraising

Helping colleges cultivate prospective donors and strengthen their relationships with alumni.

Mobile Campus

Fulfill the needs of smartphone-enabled students. Oracle Campus Self Service Mobile solution offers notifications & easy access to grades, schedules, and more on mobile devices.

Oracle Campus Analytics

Increase retention, accelerate time-to-graduation, & improve performance metrics.

Value Datavail Delivers

- Creating a modern experience that students, faculty & staff expect.
- Increasing operational efficiency by eliminating data silos, paper-based processes & automating workflows.
- Leveraging modern best practices and technology.
- Sustaining financial resources by identifying new sources of revenue & eliminating unprofitable programs.
- Providing campus leaders with real-time analytics dashboards.
