

Oracle EBS Managed Services – with Benefits

Save 25% off current application management costs

Managing Oracle EBS is not for the faint of heart. That’s why so many companies rely on managed services to keep their applications – and by extension, their business – up and running.

But now is not the time to spend more budget than you have to.

Datavail offers 24x7 managed services and support that saves you 25% – but we don’t just give you the standard basics. In addition to maintenance, support, and patching, you also gain our:

Automation Library

Implementation of our library of 30+ daily health check automations to prevent incidents and reduce workload.

On-demand Tuning

On-demand access to one of the highest-performing tuning and optimization teams, available when you need them.

Datavail Hypercare

Meticulous monitoring and resolution of unexpected system behavior following any major application change.

Oracle Apps Pro Access

Preferred access to our professional team of Oracle Applications professionals supporting WebLogic, GoldenGate, ODI, and more – no additional SLAs required.

With our managed services, you're not getting just any team. Our experts are highly credentialed.

- Oracle Platinum Partner
- Oracle Cloud Infrastructure and Cloud Operations certified
- ISO/IEC 27001:2013 certified
- On-shore, senior-level technical Oracle EBS talent
- Measured successes at some of the largest Fortune 500 companies in the world
- Culture of honesty, integrity, and low ego

Contact us today to discuss how we can increase your efficiency while lowering your costs. Our leadership and continual exposure to multiple environments ensures we provide our clients with the best possible solutions.
