High Performing Government with Citizen-Centric Approach

Now more than ever, state and local governments are trying to leverage new cost-saving technologies in an era of budgetary constraints. We can tailor packaged ERP solutions to help with financials, procurement, tax & revenue management, customer & stakeholder portals, and full system integration.

How We Can Help

As an Oracle Partner and Cloud Excellence Implementer, Datavail provides both functional and technical consulting services across all Oracle and PeopleSoft products including HCM, financials, performance management, supply chain, CRM, and Government Solutions.

Government officials and IT managers need partners with an established record of addressing and solving key institutional issues at a strategic level.

Datavail combines the in-depth enterprise software expertise of an Oracle Partner with the agility of an IT provider that is well regarded in the public sector for delivering tailored technology solutions matched to unique requirements. Our 97% client retention rate, proven proprietary methodology, and long list of high-profile customers testifies to our ability to consistently deliver solutions on time, on budget, and on spec.

We can help:

- Align IT systems, applications, and user workflows to organizational priorities.
- Empower web and mobile users – both employees and citizens looking for enhanced service levels.
- Safeguard your data with higher levels of security, compliance, and fiscal accountability.

Datavail Helps You Create a Smart, Connected, Secure Government

Modernize IT Infrastructure & Applications

Innovate with secure, cost-effective, and FedRAMP-compliant cloud infrastructure. Choose from flexible deployment options—public, private, and hybrid clouds—to seamlessly build, deploy, and manage workloads.

Deliver Smarter State & Local Government Services

Automate constituent interactions. Create a smarter, transparent; and more open government that taps into data intelligence to anticipate tomorrow's challenges.

Provide Efficient & Effective Public Healthcare

Meet the complex needs of public health systems and their patients with cloud technologies that improve population health, reduce per capita cost, and increase quality of care.

Elevate Education for Students & Institutions

Enrich teaching, learning, and administrative experiences. Support both student and institutional success with cloud-based recruiting, financial, analytics, and research solutions.

Run Smarter Cities for an Interconnected World

Develop smart, connected cities to better engage citizens, revitalize infrastructure, and intelligently deliver services.

Datavail Helps You Focus On

Transportation	Economic Development	Sustainable Growth	Infrastructure
Job Creation	Urbanization	Governance & Security	Education
Healthcare	Conflict & Fragility	Global Climate Change	Sanitation
