

BI, EPM, EBS, and Database

Datavail offers comprehensive consulting and managed services across the Oracle suite of products. From Business Intelligence and Analytics, to EPM and the complex databases that drive these applications, our Consultants, Analysts, Data Scientists, Hyperion Administrators, and Database Specialists have the ability to develop, build, configure, operate, and support Oracle databases and applications that can bolster or, in some cases, even rescue the future of your business.

Oracle Enterprise Performance Management (EPM)

If you're still using spreadsheets for budgeting and forecasting, your monthly financial close process is slow, or you're simply looking to adopt the flexibility and convenience of the cloud, Datavail's EPM Practice can help.

Supported Applications

- Hyperion On-premises
- Hyperion Essbase
